Proven Strategies That Drive Results

1

Personalise Everything

Use recipient names, behaviour data, and dynamic content blocks with {{tags}} to tailor each message uniquely.

2

Optimise Subject Lines

Keep subject lines under 50 characters. Use numbers, questions, and emojis to boost open rates by up to 47%.

3

Mobile-First Design

Over 60% of emails are opened on mobile. Use single-column layouts, large fonts (min 14px), and CTA buttons ≥ 44 px.

4

A/B Test Continuously

Test subject lines, send times, CTAs, and visuals. Even a 5% improvement in CTR compounds significantly over 1000 sends.
